Ville Michel

Apartment B4, Crown Marina

Apartment B4, Crown Marina

Mario Cassar Incorporated Design is the brainchild of construction prodigy Mario Cassar, who together with his expert team offers services such as interior and architectural design and space planning for corporate and residential clients.

Ville Michel, Mellieha presented a clear design challenge – to create 35 deluxe apartments and two penthouses in the hilltop village of Mellieha, Malta with skilled workmanship and sophisticated décor. Finishing includes gypsum ceilings, custom joinery, floor-to-ceiling glass and mosaic areas; technology ranges from home networking to intelligent lighting and multi-room speakers. Interior design schemes showcase designer joinery and

tailor-made furnishings, while elegant bathrooms provide beautiful and soothing places to relax.

Apartment B4, Crown Marina, Ta' Xbeix Seafront is a marina apartment intended for summer use, where Mario Cassar Incorporated Design was asked to create a fresh, marine feeling. Light beech and stainless steel was used throughout, with circular designs applied to custom furniture for living and dining rooms: a circular gourmet kitchen unites the design, and forms the apartment's distinct centrepiece. This has been tailor-made by one of Malta's leading joinery companies. Open space has been exploited to allow enough room for guests to be entertained.
